25X1 immediate action in this matter. [] said he had discussed it with
25X1 Mr. Loy Henderson who had agreed to send the Ambassador a letter. Mr.

it would be advisable for him to talk to Mr. Hugh Cumming and Mr. Henderson
with the aim of having Mr. Henderson send a telegram which would be
followed by a letter by him to the Ambassador.

Mr. Wisner:

Urged that in view of the unfavorable comments we have been receiving in a part of the press alleging another Intelligence failure for lack of advance warning of the USSR earth satellite, we send a message to certain key stations to counteract these allegations. 25X1 Mr. []

25X1 Noted that CIA finances a great deal of external research on projects
undertaken by [] He pointed out that in some instances CIA does not
25X1 have a strong legitimate interest in the outcome of this research but rather the
State Department or some other Agency will primarily benefit from it. He
25X1 proposed therefore that in [] projects where we are, to all intents and purposes,
acting as Executive Agent for another government agency having primary interest in
the project results, DCI obtain the approval of the NSC 5412 Committee. Mr.
25X1 [] pointed out that if this approval were obtained it would prevent CIA from
being placed in the position of paying for outside research on subjects of little or
marginal interest to CIA but of considerable interest to the State Department or
others. DCI agreed in general and asked Mr. [] to explore further the steps
it would be necessary to take to implement his proposal.
